- Mudah berkomunikasi
- Mudah bergaul
- Aktif dalam berorganisasi

HOBI SAYA

- Bermain Basket
- Bermain Gitar
- Berlari
- Fotografer
- Belajar Bahasa Pemrograman
- Ngoding

ABOUT ME

I am a student in the Diploma Program (D3) of Informatics Engineering at Sebelas Maret University. I have a strong interest in back-end development, but I am also eager to grow as a full stack developer.

I enjoy learning new things, especially those related to web technologies, programming, and system development. Currently, I am focusing on API development, database management, and modern frameworks such as React JS and Flask.

In addition, I am continuously improving my front-end skills to build applications that are not only functional but also offer a great user experience. I am open to internship opportunities, project collaborations, or discussions related to technology and programming.
